

About TUI AG

TUI AG is Europe's leading tourism group. From retail shops and tour operators via airlines, hotels and cruise ships all the way to services at the holiday destinations – the companies and brands of the company offer the complete range of services associated with travel and holidays.

The three sectors TUI Travel (tour operating, online sales, high street outlets, airlines and incoming agencies), TUI Hotels & Resorts and the cruise ship business form the World of TUI.

The main task of the group is the strategic control of the individual sectors. At the same time, TUI AG assumes classical holding functions. Besides tourism, its core business, the company currently also holds a 38.4 per cent¹ stake in Hapag-Lloyd.
